

Dear Models,

Everything is a go for this Sunday and the weather is supposed to be great! I will have a white background with white floor setup for the shoot. We will be setup outside under a white canopy tent for the shoot. There will be another canopy tent setup for the models to put their belongings, to hang out and to change at.

Here is a simple checklist, that you can printout, for this Sunday at the Harley Davidson shoot. These are suggested items to bring. Please keep track of all your items in a suitcase or two. There are probably about 15 girls that will be showing up for this. There will be about 500 motorcycles on the property. They have put our link on their site also: <http://www.ironsteedhd.com/>

The key to success: The sexier you dress and pose is most likely what is going to make you the most money! Dress and look HOT! Think Olivia Newton-John in the movie Grease in 1979. She was transformed from an everyday girl into a sexy vixen. Here is a link to the video from Grease, complete with big hair and leather: <http://video.google.com/videoplay?docid=3293403417825668739>

These are bikers and they are very proud of their machines, and have invested lots of money in them. They obviously would love to have a "hot chick" sitting on their bikes, unless of course they have a jealous wife!

There are no guarantees you are going to make money, but if you work it as a promo I am positive you will! Dress to impress...work it, work it, work it!

When you arrive at the Harley dealership, please sign-in with me and sign a model release form. Any photos you are in will be given to you on a CD also. Bring comp cards, photos or business cards that you can hand out to the fans also.

I want you all to have fun and hope you can all make some decent money!!

See you on Sunday!

Keith McNulty
